SOFTWARE DEVELOPER

Python | Figma| JavaScript | TailwindCSS | SQL | React | Next.js | TypeScript | PHP

I am seeking an opportunity as a Front-End Developer where I can apply and enhance my knowledge in software development while actively contributing to the team's projects. Currently, I work as a Front-End Developer, collaborating with experienced professionals and expanding my skills in the field. My goal is to continue growing, take on new challenges, and further develop as a programmer.
